69% of SIF money is in hybrid strategies (₹26,413 cr vs ₹11,874 cr equity-oriented, end of Sep 2026). Investors have used SIFs mostly as a better-taxed, steadier alternative to debt and arbitrage, not as an equity bet.

Arudha Hybrid Long-Short Fund: ₹100 since 04 Feb 2026

What our data shows

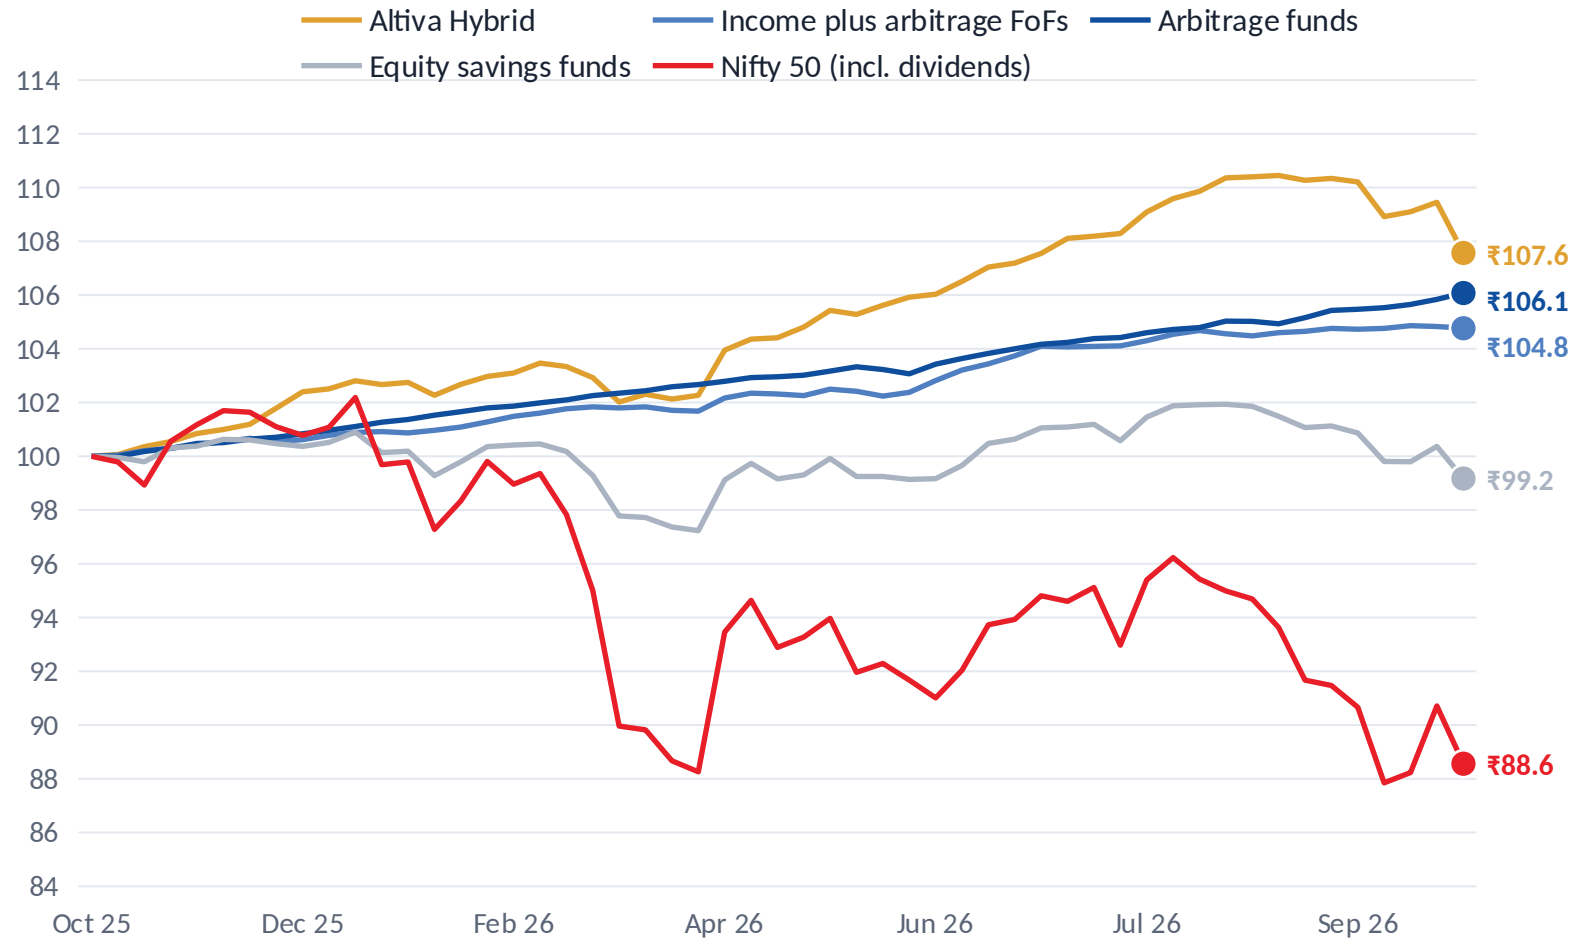

It has moved almost exactly with income-plus-arbitrage FoFs (₹103.7 vs ₹103.5), with debt-fund-like steadiness. The difference is the wrapper, not the return.

Ups and downs: 1.2% a year. Worst fall: -0.3%.

Positive in 100% of its 7 full months.

Source: AMFI (SIF and mutual fund NAVs, Regular plans, growth; SIF assets, AMFI Monthly Note) and NSE Indices, data to 23 Oct 2026. SIF returns under 1 year are absolute, not annualised. Past performance may or may not be sustained in future.

Altiva Hybrid Long-Short Fund: ₹100 since 24 Oct 2025

What our data shows

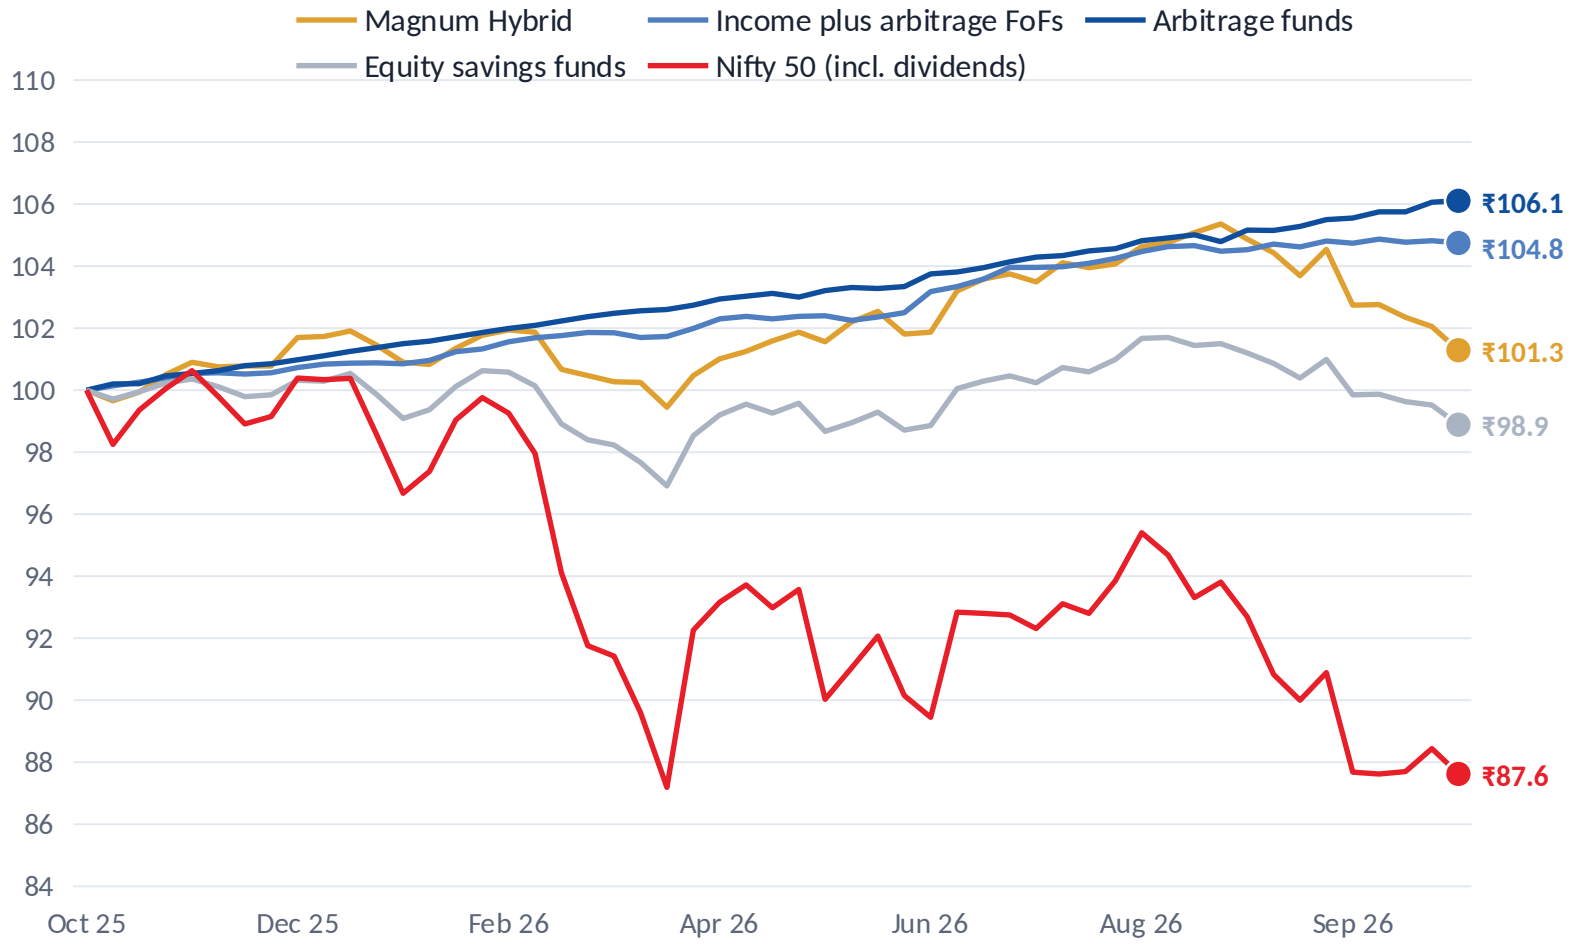

It has stayed ahead of arbitrage funds (₹107.6 vs ₹106.1) and equity savings funds (₹99.2) while the Nifty fell to ₹88.6.

Ups and downs: 3.5% a year. Worst fall: -2.7%.

Positive in 82% of its 11 full months.

Source: AMFI (SIF and mutual fund NAVs, Regular plans, growth; SIF assets, AMFI Monthly Note) and NSE Indices, data to 23 Oct 2026. SIF returns under 1 year are absolute, not annualised. Past performance may or may not be sustained in future.

Magnum Hybrid Long-Short Fund: ₹100 since 29 Oct 2025

What our data shows

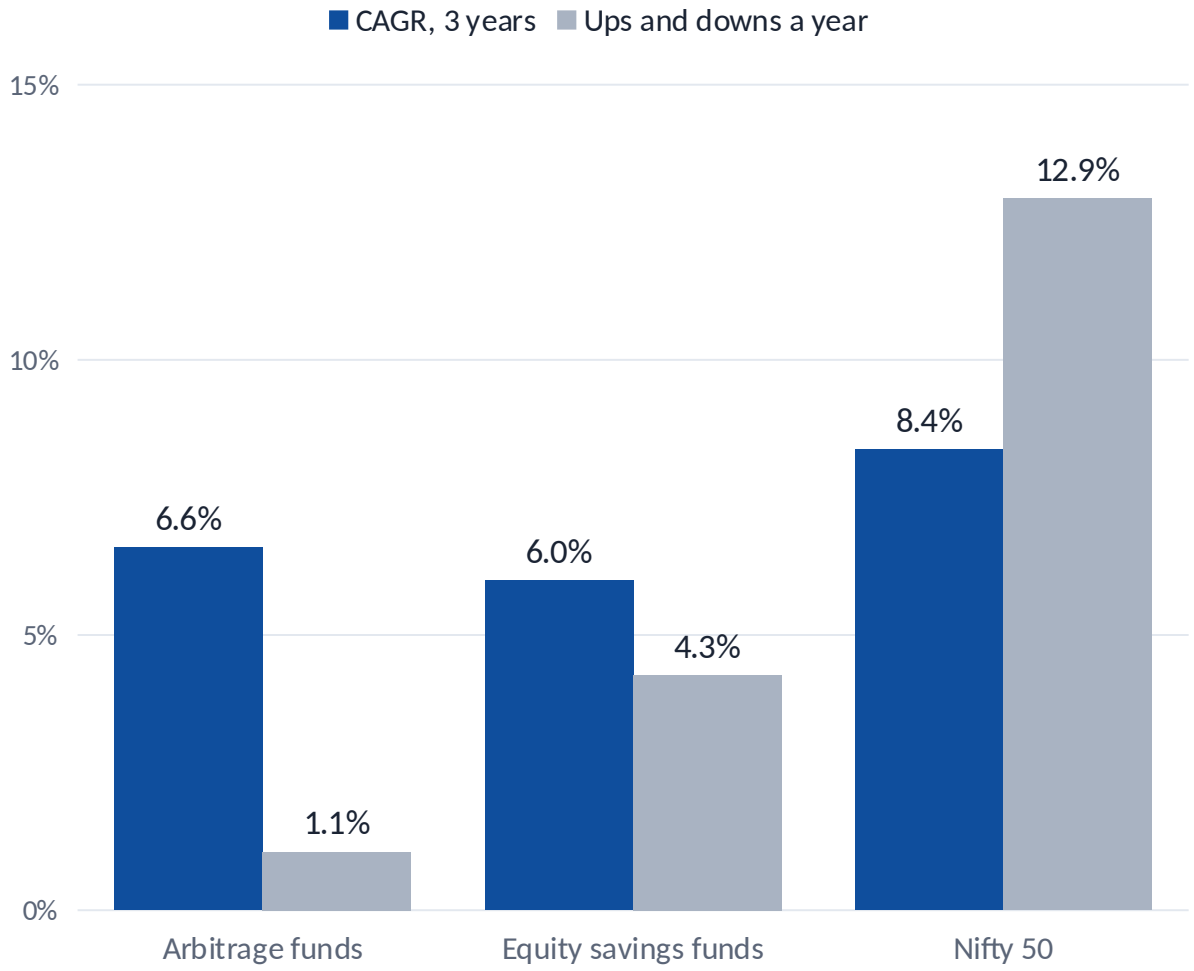

It held up in the 2026 fall, but has trailed arbitrage funds since launch (₹101.3 vs ₹106.1). Its monthly returns have stayed between -2.4% and +2.2%.

Ups and downs: 3.9% a year. Worst fall: -4.0%.

Positive in 73% of its 11 full months.

Source: AMFI (SIF and mutual fund NAVs, Regular plans, growth; SIF assets, AMFI Monthly Note) and NSE Indices, data to 23 Oct 2026. SIF returns under 1 year are absolute, not annualised. Past performance may or may not be sustained in future.

No SIF has 3 years yet: this is the bar a hybrid SIF must clear

	Worst fall	Worst 1-year	Best 1-year
Arbitrage funds	-0.4%	+5.5%	+7.5%
Equity savings funds	-4.3%	-0.9%	+13.9%
Nifty 50	-15.4%	-11.8%	+37.6%

How to use this: a hybrid SIF sold as "arbitrage plus" should beat 6.59% a year over 3 years with similar steadiness. One sold as "equity savings plus" should beat 5.99% with smaller falls than -4.3%. Recheck every SIF against these bars as its track record reaches 1, 2 and 3 years.

Data is only half

These four tests use NAVs and assets only. AssetPlus's framework also judges what data cannot show:

- Pedigree of the fund house and team
- Strategy clarity and risk framework
- Communication on exposures
- Track record across market cycles

A SIF that passes all four here is a candidate for research, not an automatic buy.

Source: AMFI (SIF and mutual fund NAVs, Regular plans, growth; SIF assets, AMFI Monthly Note) and NSE Indices, data to 23 Oct 2026. SIF returns under 1 year are absolute, not annualised. Past performance may or may not be sustained in future.

Important information

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.

Past performance may or may not be sustained in future and is not a guarantee of future returns.

All SIF returns, risk measures and assets are computed by us from data AMFI publishes on its SIF pages (NAVs, quarterly AUM) and AMFI's Monthly Note (month-end SIF assets), Regular plans, growth option, to 23 Oct 2026. Returns under one year are absolute, not annualised. Peer categories use AMFI mutual fund NAVs; index figures are from NSE Indices Ltd. No figures are taken from fund factsheets or third-party reports.

Investments in Specialized Investment Funds involve relatively higher risk, including potential loss of capital, liquidity risk (interval strategies can be redeemed only on set days) and market volatility. The Early Conviction names are AssetPlus's view; SIFs named elsewhere are listed for information and are not recommendations.

For distributor and investor education. Investors should consider their goals, time horizon and risk profile, and consult their financial adviser or distributor before investing.
